ATTN : Mr. Cunningham

Executive Officer, PIC

Grounding of Electrical Appliances

REF : (Attached) - Memo from [] dtd 22 June 59

STAT

1. Pursuant to the attached memorandum from [] please thoroughly check all electrical appliances being used in the Steuart Building by our personnel to ensure that recommended grounding procedures by manufacturers are being complied with to the letter. In the event that we are not complying with such recommendations, take necessary action to remedy this.

STAT

2. Consistent with this investigation, please solicit opinions from technical supervisors responsible for electrical equipment concerning the possible need to ground equipment even though not specifically recommended by the manufacturer. In the event supervisors believe safety precautions of this order are in the best interests of the safety of users, please see that subject equipment is grounded.
